SIDENT M'CALL WILL NOT RESIGN

Head of New York Life Insurance Company.

HE DECLARES IN INTERVIEW.

Newspapers Have Tried Testimony Before Armstrong Committee Unfair.

Opposed Application of Mandamus Directing Him to Furnish a List.

New York, Dec. 8.—Reports that President John A. McCall, of the New York Life Insurance company, will soon follow the example set by George W. Perkins, in determining to leave that company, at an early date, crystallized yesterday in a story to the effect that Mr. McCall would certainly resign before the next annual meeting in April, and might place his resignation in the hands of the trustees before their meeting next Wednesday. Mr. McCall himself said last night that he had no intention of resigning.

"I believe the policyholders are for me," he declared. "Nobody has asked me to resign, and I don't expect to be asked to resign, nor do I expect to resign."

The resignation of Mr. Perkins was suggested by Mr. Morgan to whom the question of Mr. Perkins holding his dual position was referred when Mr. Perkins entered the firm of J. P. Morgan & Co., it is solely at Mr. Morgan's suggestion that Mr. Perkins is retiring from the New York Life.

President McCall explained that the newspapers have tried his testimony before the Armstrong committee unfairly.

Opposed to Mandamus.

Clarence H. Venner applied to Supreme Court Justice Greenbaum yesterday for a mandamus directing John A. McCall as president of the New York Life Insurance company, to furnish him with a complete list of the policy holders supplemented by their address, as and the amount of their policies.

The object of Venner's move is to obtain proxies to be used at the election of trustees next April. His counsel submitted a statement declaring that there exists sufficient dissatisfaction among the policy holders to warrant the election of new trustees and other officers.

Counsel representing Mr. McCall opposed the application strenuously and submitted an affidavit by McCall in which Venner's motives are attacked.

Mr. McCall in his affidavit says that the names and addresses of a policy holder are considered confidential matters and that if a list was given to Mr. Venner he might use it to the company's disadvantage and his own personal profit.

Decision was withheld.

NEW LEAGUE IS FORMED.

Will Be Polish Annex of the Russian League of Leagues.

Warsaw, Russian Poland, Dec. 8.—Thirteen unions of civil engineers, lawyers, teachers, physicians, clerks, etc. have formed a Polish League of Leagues, as an annex of the Russian League of Leagues.

The local police have petitioned the chief of police for better pay, housing and treatment. They require a favorable answer during the week, otherwise they will strike.

Advices from Odessa, Kieff, Rostoff and Kharkoff say that many merchants of those cities are finding it impossible to transact business, and are sacrificing their interests and leaving the country.

Steamer Damaged by Fire.

New York, Dec. 8.—A fire in the Jersey steamer Rosalie early this morning damaged the vessel to the amount of $50,000. Five men of the crew sleeping on board were rescued by boats from the government transport General McClellan, which was lying alongside. The entire cabin and woodwork of the Rosalie were destroyed, and her stern is sunk under the weight of water poured in by the firemen.

NEW SENTENCE GIVEN PATRICK

Condemned Lawyer Must Die During Week Beginning Jan. 22.

New York, Dec. 8.—After making a final personal plea to the court in his own behalf, Albert T. Patrick, the lawyer convicted of the murder of William Marsh Rice, Wednesday night, was sentenced to die in the electric chair in the week beginning January 22 next.

Sentence was pronounced by Justice Rogers in the criminal branch of the state supreme court. Notice at once was given of an appeal to the supreme court of the United States on a writ of error. The application for the writ, it is said, will act as a stay of execution. Patrick was taken back to Sing Sing.

As the case neared a close Patrick grew restless while listening to the arguments both for and against him, and arose unexpectedly in his place and pleaded to be heard.

The lawyers in the case held a hurried consultation. Patrick stood pale and anxious. The court's permission to proceed finally was granted and Patrick spoke for nearly fifteen minutes. His voice at first was a bit husky, but grew clear as he proceeded, and judge, attorneys and all in the court room listened attentively, apparently impressed by the unusual situation.

When Patrick had been allowed to proceed in his own behalf he urged that there was no direct evidence that Rice had been killed and reiterated his claim that he had been convicted on manufactured evidence.

Judge Rogers then ordered Patrick to stand up, and sentence was pronounced.

ISLE OF PINES AMERICAN.

Citizens Claim Island is Part of the United States.

New York, Dec. 8.—A cable dispatch to the Herald from Havana says that the members of what is claimed to be the "legislature" of the Isle of Pines, when they gave credentials to Mr. Ryan as delegate to congress, listened to the reading of a message to the American people by T. B. Anderson, "secretary of sate," and approved a document saying:

"The administration seems to be against us. The only reply to our appeal has been a letter from Mr. Root saying he expected to urge confirmation of the Isle of Pines treaty," and continuing, in part:

"We concede that Cuba was given police jurisdiction over the island for the purpose of giving protection to life and property, but we deny the right of that government to levy axes, collect customs, revenues and enforce the old Spanish code of laws, which has been Spain's curse.

"We do not ask for annexation to the United States. All records show conclusively that we are now part of the United States.

"We want not your money, guns or ammunition, for all these have been freely and bountifully offered, if we would use them, but we want your influence and support. We love our flag, our country and our institutions, and for a continuance of these shall ever pray."

Strikers Pronounce Against Yielding.

Moscow, Wednesday, Dec. 6, via Eydtkuhnen, East Prussia, Dec. 7.—The elaborate measures taken by the police and military for the protection of men who are willing to return to work have failed to induce any of the striking telegraphers to resume their employment. A meeting of two thousand strikers today unanimously pronounced against yielding. The Finnish delegates declared that all the telegraphers of Finland were ready to enter the union and support the strike. Three hundred strikers have already been dismissed under the decree of Interior Minister Durnovo.

Prosecute Negro Doctor.

Macon, Ga., Dec. 8.—Bill Stubbs, a negro who is styled among negroes as "doctor," is under arrest, because a coroner's jury has said his medicine hastened the death of one of Stubbs' patients. He will be prosecuted for practicing medicine without a proper license. It is said that he gave patent medicines, and was doing a rousing business among the negroes who believe in patronizing their own color.

RUSSIAN MINISTER IS ASSASSINATED

Shot Down at Home of Saratoff Governor.

BY MEMBER OF FLYING COLUMN

Had Called General Sakharoff to the Door and Fired Three Shots Which Produced Instant Death—Event Has Created Profound Impression.

London, Dec. 8.—The St. Petersburg correspondent of the Daily Telegraph, in a dispatch dated Dec. 5, sent by way of Eydtkuhnen, says:

"Lieutenant General Sakharoff, former minister of war, was assassinated today.

"The government had deputed General Sakharoff to visit the province of Saratoff for the purpose of quelling the agrarian riots there.

"A woman belonging to the so-called 'flying column' of the revolutionary movement, called at the house of the governor at Saratoff at noon today and asked to see General Sakharoff. She fired three shots at the general, killing him on the spot.

"The tidings reached St. Petersburg tonight. Count Witte charged Lieutenant General Rudiger, minister of war, with the task of breaking the news to Madame Sakharoff.

"The event has created a profound impression in St. Petersburg, owing to fears that the revolutionists here will follow the example thus set."

Had Oppressed the People.

St. Petersburg, Wednesday, Dec. 6, Morning, via Eydtkuhnen, East Prussia, Dec. 7.—The news of the assassination of Lieutenant General Sakharoff, former minister of war, who was shot in the governor's palace at Saratoff, Dec. 5, has been preceded by the most horrible manner in which Sakharoff had been oppressing the people. He corralled peasants with Cossacks and had them beaten with the soldiers' whips. In so doing, Sakharoff pursued the system adopted by Prince John Obolensky, former governor general of Finland, in suppressing the agrarians in the vicinity of Kharkoff several years ago when the prince caused the peasants to be whipped by relays of Cossacks and compelled them in turn to beat their comrades. The assassin of Sakharoff has not been identified. When arrested the woman who committed the crime declared she had executed a decree of the terror section of the Social-revolutionists.

FORMER JUDGE IS ARRESTED.

Alleged He Was Wanted For Passing Worthless Check.

New York, Dec. 8.—William Frey, of Santa Fe, a former judge, was arrested at the Hotel Roland yesterday on a telegraphic order from the chief of police of Santa Fe, alleging that he was wanted for passing a worthless check.

When arraigned before Magistrate Walsh in the Tombs court in the afternoon, he said that not long ago in a poker game in Santa Fe he lost $700 in money and gave a check for $100 for a balance due the bankers. He had stopped payment on the check, he said, because he thought the $700 ought to satisfy the house.

Abe Levy was in court with Frey, and the prisoner was paroled in his custody until the Santa Fe authorities are heard from further.

Little Girl Burns to Death.

Macon, Ga., Dec. 8.—Little Bessie Whittaker, the 10-year-old daughter of J. C. Whittaker, lies dead at the Whittaker home, in East Macon, after having suffered in agony since Tuesday. While playing with some companions in the rear yard around a trash fire, the dress of the child became ignited and in an instant she was enveloped in flames. With piercing screams she ran to the street, and although willing hands smothered the flames, it was not until they had done their deadly work. Wednesday afternoon the child died after lingering in agony since Tuesday.

Columbus, Ga., Dec. 8.—Georgia, Florida and Alabama cities that would be benefited by deepening the harbor at Apalachicola, Fla., at the mouth of the Chattahoochee river, have been invited to be present at a meeting of the Columbus board of trade Thursday night, at which a strong delegation will be appointed to go before the government board of engineers, at its approaching session at Apalachicola, and submit facts and figures relative to deepening the harbor there.

Various cities have already notified President J. Ralston Cargill, of the board of trade, that they will be represented at the meeting.

Governor Terrell was invited to be present, but had an engagement which he could not defer.

TURN IMMIGRANTS SOUTHWARD.

Others present were Archbishop Ireland, of St. Paul; Alfred Mosely, of London; Samuel Gompers, president of the American Federation of Labor, and Professor J. W. Jenks, of Cornell university.

The statement that over 1,00,000 immigrants have come to the United States during the past year, and that the south and west, the sections of the country which which needed and wished for these new citizens, did not get them, was made by Frank P. Sargent, United States commissioner general of immigration. Mr. Sargent proposed that the United States hereafter take steps to distribue immigrants according to the needs of the country.

St. Marys Port Yields No Profit.

Washington, Dec. 8.—The post of St. Marys is one of several in the United States where the expenses of the collector's office largely exceed the customs revenue, the total amount collected there during the last fiscal year was but $7.22, while the expenses of the office were $696.81. It thus cost $92.98 to collect every dollar that came in at this port.

NINE ARE KILLED IN HEAD-ON COLLISION

Overland Limited Collides With Freight Train.

ABOUT TWENTY ARE INJURED

Engines, Dynamo, Mail and Dining Car on the Passenger Train Were Completely Demolished—Many of Train's Crew Are Among the Dead.

Green River, Wym., Dec. 8.—The Overland Limited on the Union Pacific railroad collided with a freight train, head-on, at Wilkins station, early today, demolishing the engines, dynamo, mail and dining cars on the passenger train.

Nine people are known to be killed including two mail clerks, four cooks in the dining car, two electricians in the dynamo car and one engineer.

The wreck occurred at Rock Springs, Wyo. The limited was run into by the freight and both engines were demolished. Several of the bodies were incinerated. The dead were all train employes who lived in the west.

An extra freight train was given an order before it left Rock Springs to meet four eastbound passenger trains, of which the Overland Limited, the last one, at Ahsay, about 5 miles west of Rock Spring. The freight train took the siding at Ahsay and waited until three of the trains had passed east and then pulled out.

When a mile and a half west of Ahsay, the freight met the Overland Limited and crashed into it head-on.

Engineer Overran Orders.

Engineer Brink, of the freight train, who, it is stated officially was responsible for the overrunning his orders, was one of the killed.

Several trains had been badly delayed at Granger with the result that the four passenger trains were running close to each other.

The freight had received positive orders to meet all four of them.

None of the passengers was seriously injured.

TRACK BETTING PROHIBITED.

Law Went Into Effect in State of Tennessee, Dec. 1.

Nashville, Tenn. Dec. 8.—On the first day of this month the law enacted by the last legislature, prohibiting betting on races run on tracks in this state went into effect. Yesterday a race was run on the fair grounds track at Shelbyville, Tenn., on which books were made. It is understood the race was arranged by the Western Jockey Club followerers at Memphis and was intended as a test case.

The parties to the race were arrested by the sheriff of the county.

The race was brought off in Shelbyville for the reason that court was in session and racing men are anxious to test the constitutionally of the racing law.

The amount bet on the race was small.

St. Louis, Dec. 8.—Apoplexy caused the death yesterday at Bloomington, Ill., of Mrs. John I. Martin, of St. Louis, wife of Colonel John I. Martin, the attorney who directed the last three national campaigns, was the sergeant at arms of the national Democratic convention.

She was 54 years old, had been in ill health for several years. She had gone to Bloomington to visit relatives. A telegram received here stated that she had suffered a stroke of apoplexy and Colonel Martin went immediately, but arrived at her bedside after her death. Interment will be made in St. Louis, Mo.

BRUTAL KILLING OF OFFICER E. E. JOHNS

Was Killed Near Fernandina Wednesday.

BODY WAS FOUND FRIDAY

Johns Was on His Way With a Man Alleged to be Abe Brown to Arrest Another Man Who Was Charged With Having Stolen Fish Nets.

The following from the Fernandina correspondent of The Metropolis, under date of the 18th inst., has the following containing the murder of Ex-Sheriff E. E. Johns of Bradford county, who for the past few months has been deputy sheriff of Nassau county, of which Fernandina is the county seat. Mr. Johns was well known in this section, where he had many friends, and his sad and sudden ending will be regretted here:

"Deputy Sheriff E. E. Johns was foully murdered near this city last Wednesday and there is great excitement here, as his body was found last night with a bullet hole through his skull.

"On Wednesday morning a man calling himself Abe Brown came to Fernandina and swore out a warrant for a party named Doty, alleging that Doty had stolen some fishing nets. The warrant was given to Deputy Sheriff Johns to serve and he left town in a buggy with Brown to make the arrest.

"Mr. Johns did not return to the city Wednesday and his absence caused considerable uneasiness, and yesterday morning searching parties were organized, and about noon the horse and buggy were found at Davis' Crossing. The search was continued for Mr. Johns last night between the hammock and the beach, and Mr. Johns' body was finally discovered lying in the hammock near the beach.

Formerly Bradford's Sheriff.

"Mr. Johns was formerly sheriff of Bradford county and served in that capacity for many years. He was known far and wide as a most efficient officer and one of the bravest men in the State. He has been deputy sheriff of Nassau county for the past six months.

"No one knows anything about the man Brown. He is a young man, apparently not more than 22 or 23 years of age, has a light moustache, but no beard. Being a stranger in this city, it is feared that he may have been sent here to lure the deputy away from town."

Johns Was a Witness.

Continuing, The Metropolis says: "Johns was to have been summoned here yesterday as a witness in the case of the United States against Alto Williams, charged with breaking and entering the postoffice at Lawtey some time ago. This case was called this week in the United States Court here, but was postponed. The evidence of Johns was considered very material for the Government. It is a known fact that Williams, who is a fugitive from justice at present, belongs to a faction in Bradford county who are bitter enemies to Johns. It was discovered yesterday that there was a technical error in the indictment against Williams. To overcome this it was considered necessary for Johns to come here at once, and a deputy United States marshal was sent to Fernandina yesterday morning to summon Johns to this city.

Should Hunt Down Murderer.

"It now remains for the authorities to establish the identity of the alleged Abe Brown, and the Government should take a hand in endeavoring to ferret out this horrible assassination. The authorities have a clew along this line upon which they are now hard at work. It is a criminal offense to intimidate or dispose of Government witnesses, and in doing so in this case it seems that foul murder has been resorted to for this purpose, and such an act is a black spot upon the State and a disgrace to its fair name.

"The body of Johns will leave Fernandina this afternoon at 5:20 o'clock for this city. Here it will be transferred to the train for Starke, where the funeral services will be held tomorrow. A delegation of Elks from the Jacksonville lodge will meet the train this evening, the deceased having been a member of the order. Tomorrow a delegation of Elks will go to Starke to attend the funeral of the deceased brother.

"Johns was very popular in Fernandina, and today a large number of people are searching for the man alleged to be Abe Brown."

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Home of Swamp-Root.

WILL HAVE MORE TIME.

Druggists Will Have Until April 1st to Take Out License.

The Sun contained in a recent issue an article to the effect that the druggists by a ruling of the United States revenue department would be compelled to take out a government license if they sold a certain line of patent medicines containing a given percentage of alcohol after January 1st, 1906. This order originally provided that no druggist should dispose of this class of drugs after December 1st without a government license, but later announcement came that grace would be extended to January 1st. The department has since issued a statement that the time has been extended to April 1st, 1906.

In speaking of the matter Friday a prominent local druggist stated that the business in Gainesville would not be affected, with the possible exception of two or three remedies, and for which there has been a very poor sale.

"We do not fear the law," he said, "because we are legitimately in the drug business and if the dealers in these remedies want to keep their goods on the market they must 'pay the freight.' I do not mean to infer by this that the remedies may be taken as containing too much alcohol, but that the sale is so slow it would not pay us to handle the goods under a license.

"It may sound peculiar," the druggist continued, "but our trade has been less in medicines claimed to have a great per centage of alcohol since the county voted dry than before. These remedies I know are good for whatever they are advertised to cure and it is only the fanatics who claim that the manufacturer and the druggist are 'getting rich' from their sale."

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eleminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

LAST NIGHT'S CONCERT.

A Large Audience Enjoyed the Fine Musical Treat.

The second concert of the season at Holy Trinity Church Friday evening was enjoyed by a large and appreciative audience. The numbers were all well rendered and of a high order.

Mrs. J. A. Goodwin, although suffering from a severe cold, which seemed to render her hardly unable to undertake to sing, succeeded in pleasing her many friends with her beautiful rendered solo. In the high tones she had wonderful control and she received many favorable comments.

Mr. F. S. Hyatt in his solos showed his powerful and cultured voice to good advantage. His selections, while they were classical, were filled with the sweetest music.

The orchestra was charming, the Misses Hampton and Richards on the violin playing with much expression. Mrs. R. A. Becker, at the pipe organ, was at her best. The concert was a real musical feast.

Coughing Spell Caused Death.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1st, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and $1. Sold by W. M. Johnson.

Pemble, the clever traveling representative for DeVoe's paint, who has been a regular visitor to Gainesville for several years, has furnished The Sun with a couple of original puns which will be appreciated. Mr. Pemble is the author of the ritual of that famous order, the Ancient Order of O-Rang-O-Tange, which was so popular in the South during the 90's.

There are also a number of applications before the lodge. It is proposed within the next three months to begin the erection of an $18,000 club house on the lot recently purchased by the Elks, which will be a credit to the order and the city.

ONE OF THE HANDSOMEST.

The Levy Times-Democrat, published by Oliver J. Farmer of Bronson, is not anything if not truthful, and when it publishes the following we feel certain that our worthy brother believes what he says:

"The Industrial Edition of The Gainesville Sun is one of the handsomest publications ever issued in Florida, and shows up the resources of Alachua county in most attractive style. We congratulate The Sun."

We have many other equally favorable notices from our good brothers of the press, who know the labor such a work requires, and the edition has met with such popular favor from every quarter that we have decided to make it an annual feature, and will next year try to excel the present issue.

The holiday season will soon be here, after which many tourists will come down to show their Christmas gifts.

If the code at Annapolis were only revised and the rings padded, there would be a smaller number of casualties.

The new residences built in Gainesville the past summer are now all occupied, and still there are people looking for houses to rent.

The South Carolina dispensaries have got to pay a government tax, according to a recent decision of the United States Supreme Court.

We are having hard work to keep the political pot in Florida from getting onto the fire. Some people are anxious to start it going.

Russia's former War Minister, Gen. Sakharoff, met death at the hands of a woman. Possibly the brutal general had caused the murder of some of his relatives. Few will mourn him.

The message of President Roosevelt has started the ball rolling, and there will be some investigations regarding the disposition of some of the insurance funds, also the press bureau of the Panama canal.

The better class of Japanese who have been engaged mostly in commercial pursuits in California are flocking homeward. They think they have better chances in Korea and Manchuria than in America. The leaders of the San Francisco Japanese colony say that not again for many years will Japanese immigration set towards the United States.

Somebody is whimpering about the outcome of the fight in the Supreme Court, provided it is adverse to the Buckman bill. Don't give up the ship—especially ahead of time. If the court declares the Buckman bill unconstitutional, The News believes Governor Broward will immediately call an extra session of the Legislature, have it cure the defects pointed out by the court and make the law good and strong. The tons of rot that are being published need not frighten the people. The politicians may get on the high horse, but the country is still safe.—Cocoa and Rockledge News.

CARE OF WOODLOTS.

Many farmers in Florida are beginning to look to the saving of woodlots, which will soon be almost invaluable in many portions of the State.

There is a right way to do everything, and the care of the woodlot is not an exception to the rule. The right way, moreover, is often quite simple, the good results which follow being out of all proportion to the time or labor expended. Too many woodlots are simply neglected, and by far the greater number of them are missed for want of foresight or a true appreciation of their value.

The first principles of right woodlot forestry may be summarized in a brief list of don'ts, by which every woodlot owner may profit with very little trouble.

Don't dispose of your woodlot. You need it for your own use. It can be made to give you fuel, posts, poles, fence rails, even such timber, boards and shingles as will keep the farmstead and barns in repair. With a little encouragement its value for home supply will increase year by year. While you use it, it will renew itself, and the price of its products are certainly not decreasing.

Don't turn your woodlot into a pasture. Tree seedlings are quickly bruised and crushed by the trampling of live stock. Hungry cattle browse upon them. The soil becomes packed hard and unable to retain moisture so much needed for the encouragement of young growth.

Don't thin your woodlots too heavily. If you do, large openings are made through which the sunlight streams in, drying the soil and encouraging the growth of grass, which should never be suffered to replace the spongy humus that forms the natural top layer of soil in a healthy forest. A crown canopy, formed by the leaves and branches, should always shade the forest floor. Too much light encourages the formation of branching short-stemmed trees.

Don't burn over the woodlot. It has been pointed out that the woodlot is not fit for pasture purposes, but even if it were, the burning over of the soil would still do irreparable damage to young growth, consume the litter which ought to rot into humus, and destroy the very conditions which nature seeks to establish and preserve.

INDUSTRIAL EDITION.

The Industrial Edition of The Gainesville Sun, recently issued, is a magnificent exposition of Alachua county's achievements, resources and logical prospects. It is just such a paper as the public had reason to expect would issue from a live publication office located in a live town, and that it will bear fruit to the future glory of Gainesville and The Gainesville Sun all who see it must believe. It has been said that all good Georgians when they die hope to go to Atlanta. That idea ingrained into the Georgia conscience has made Atlanta This same notion regarding Gainesville, with an unwillingness to await death for a realization of hopes, is rapidly taking hold on the people of Alachua and spreading to other counties of the State. And it is this notion, coupled with the fact that the city is as a unit for its own advancement, that is rapidly making Gainesville the best inland city of Florida. And it is there that The Sun shines and does its full part in its upbuilding.—Palatka News.

The trade edition of The Gainesville Sun is out and is a credit to its publishers, and shows up Gainesville in the very best manner.—Dunnellon Advocate.

The Gainesville Sun is an enterprising paper published in an enterprising town. Its Industrial Edition is one of the neatest illustrated descriptive papers we have yet seen and will prove interesting to those seeking a home. Just such a paper as will attract attention and secure settlers.—New Smyrna Breeze.

GOOD STUFF IF TRUE.

The farmers of Gainesville claim to be growing a grade of sweet potato equal in grain and flavor to the celebrated Jersey sweets.—Orlando Daily Reporter.

Having tasted both the connoisseur of The Sun is prepared to back up the statement. And this is a point that all farmers should aim at when raising crops The best seed planted in good soil will produce the same results for a number of years at least. There is plenty of good soil in Alachua county where good vegetables will grow and yield well. But there are farmers to be found in many localities that do not take the pains to produce quality, but aim for quantity. Even this can be no excuse in many instances, for these same fine sweet potatoes mentioned in the above quotation yielded as well as the inferior varieties that are too often seen on the market.

The Cocoa and Rockledge News says that the way of the trucker is hard. The latest report is that beans arrive in Boston frozen. The express company charges $1.11 to carry them and delivers them frozen, the market price is from $2 to $2.50, so there is not enough left to pay for crates and packing, much less for seed and fertilizer.

Pensacola is making up for lost time and shipping business from that port is now going on at a lively rate. The docks are the busiest places in the city.

The Pain Family

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pills an excellent remedy for overcoming headache, neuralgia and distressing pains of all sorts. I have used them for the past seven years in this capacity with the best of results."
MRS. JOE MERRILL, Peru, Ind.

Weekly Crop Report.

The following is the weekly crop report sent out by the Florida Section Bureau at Jacksonville:

"Although there were several days when the temperature was below normal, the week, as a whole, averaged warmer than the normal. All sections of the State received fairly well distributed rains, the greatest amounts occurring over southern and western districts. Although rains will do much good the long drought has caused a serious delay and shortage in winter vegetables. In the extreme south portion of the State vegetables have pushed forward on the lowlands. They have suffered seriously on uplands throughout the State. Citrus fruits are being shipped in large quantities. The fruit is becoming excellent in flavor. The last of the corn crop was housed and much activity continues in syrup making. At the close of the week the weather was fair and cold over all districts except the extreme south, where rain was falling."

Reading of Panama Canal Resumed.

Washington, Dec. 8.—Reading of the Panama canal appropriation bill was resumed in the house at the convening of that body today. The first amendment was presented by Mr. Williams. He moved to cut the appropriation from $16,500,000 to $9,000,000, stating that he had come to the conclusion that this latter sum was sufficient to meet the needs of the commission to January 15th next.

TO REGULATE COTTON PRICE.

Manufacturers to Meet at Charlotte on Next Saturday.

Charlotte, N. C., Dec. 8.—At the instance of President R. M. Miller, Jr., Secretary C. B. Bryant, of the American Cotton Manufacturers' association, Wednesday night, called a meeting of the board of governors to be held in Charlotte on the 9th instant, when the proposition submitted by J. A. Brown, of Chadburn, representing the Southern Cotton association, will be considered.

It is stated that the proposition submitted by Mr. Brown, which was a plan to get together to regulate the price of cotton, was seemingly feasible, and President Miller agreed to call together the board of governors of the association, so that the plan might be submitted to them as well. Mr. Brown will be invited to be present, and the meeting is expected to be an interesting one.

In addition to the above, other matters, such as are of moment to manufacturers, will be considered.

LaGrippe and Pneumonia.

Pneumonia often follows lagrippe, but never follows the use of Foley's Honey and Tar. It cures lagrippe, coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, 157 Osgood street, Chicago, writes: "My wife had a severe case of lagrippe three years ago and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50-cent bottle cured her cough entirely." Refuse substitutes. J. W. McCollum & Company.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

CUBAN MINISTER TO THE U. S.

Recommends Pe-ru-na.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1898, by George Kennan, who heard Quesada speak at the Esteban Theater, Mantanzas, Cuba, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement; but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Medicine Company, written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

Congressman J. H. Bankhead, of Alabama, one of the most influential members of the House of Representatives, in a letter written from Washington, D. C., gives his endorsement to the great catarrh remedy, Peruna, in the following words:

"Your Peruna is one of the best medicines I ever tried, and no family should be without your remarkable remedy. As a tonic and catarrh cure I know of nothing better."—J. H. Bankhead.

There is but a single medicine which is a radical specific for catarrh. It is Peruna, which has stood a half century test and cured thousands of cases.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence strictly confidential.

STARS FOR VOYAGERS.

Nine Used by Navigators to Place a Ship's Location.

There are nine eminent nautical stars considered by navigators. They are important as determining the position of the ship at the time the observation is taken, calculated by their distance from the moon. The stars are Alpha, Arietis, the principal star of Aries, but of the second grade; Aldebaran, first magnitude, in the rich asterision of Taurue, easily distinguished by its red color; Pollux, second magnitude, in Gemini, readily known by its companionship with the brighter Castor; Regulus, a first class star in the breast of Leo (hence often called Cor Leonis, the Lion's Heart); Spica Virginis, a first class star in Virgo, remarkably conspicuous from being insulated in a dark surrounding field; Alpha Aquilae, generally known as Altair, first magnitude; Alpha Pegasi, second class, usually termed Narkab; Antares, first magnitude, in Scorpio, distinguished by its fiery red color; Fomalhaut, first class, in Piscis Australis. These stars are conveniently situated with reference to the moon's path and are used for taking tables of lunar distances by makers of nautical almanacs in order to enable vessel masters to deduct their longitude. The distances of the center of the moon from some of the nine conspicuous stars near the ecliptic are computed with the utmost care for every three hours during the year at Greenwich. When on the broad ocean the navigator finds his position by marking when such a lunar distance, set down accurately in the almanac for the day and hour, occurs, as seen from his own vessel, and deduces thereby his whereabouts on the watery waste.—Milwaukee Free Press.

MADE TO ORDER BEAUTY.

Artificial Noses, Mouth Formers and Dimple Denters.

The best artificial noses nowadays are made of papier mache, enameled. Such a nose is fastened to a spectacle frame sometimes for the sake of convenience and thus may be put on or removed at brief notice.

There is a patented contrivance, somewhat resembling a clothespin, for attachment to the nose to give to the organ a proper taper. Another device is supposed to improve the lines of the mouth.

Not a few people have no roofs to their mouths, having been born without any, or in other cases having lost them by disease. For such unfortunates artificial mouth roofs made of galvanized rubber are furnished.

There is a patented device for cleaning the tongue, consisting of a knife with a concave edge to which a sort of sponge brush is attached. When one is not well one's tongue is liable to be disagreeably coated, but the annoyance may be removed by means of the instrument described.

If you desire dimples you may wear a certain kind of wire mask at night to which are attached blunt wooden points that may be caused by the help of screws to press upon the points where the dimples are wanted. Thus after awhile the dimples are made to appear.

An Old English Law.

An act of parliament, passed in the reign of George III. and which is still in force, exempts members of the yeomanry from the ballot for the militia, allows them to ride through a toll bar when in uniform without paying and also relieves them from the tax on powder for the hair. Such privileges were highly valued in 1804, when the act was passed; but, as yeomen are not now liable for the militia ballot, as toll bars have been abolished and as hair powder is no longer in request, these favors have ceased to have any practical value. Nevertheless, they still exist.—London Mail.

A Humble Archbishop.

Willegis, a famous archbishop of Mentz, rose to that elevated position from the very lowest ranks. He was the son of a poor carter, but was never ashamed of his parentage. He not only caused the following inscription to be placed conspicuously in his palace, "Willegis, remember thy parentage," but had the wheels of a cart hung up in the Cathedral of Mentz. From that time to this the arms of the see have borne the figure of a cart wheel.

The Word "Covey."

Long custom has practically limited the word "covey" to association with the partridge, although it has always been used with grouse and ptarmigan. Beaumont and Fletcher, however, spoke of "covey of fiddlers" and Thackeray of a "covey of trumps." The word means properly a brood, hatching, coming through the French "couver," to sit (of a hen bird), from the Latin "cubare," to recline, whence "incubate" also sprung.

Proof.

Prospective Purchaser—You say this is a healthy place, yet the man next door is confined to his bed. How do you account for that? Real Estate Agent—Oh, he's a doctor and is slowly dying of starvation.—Chicago News.
